Dear Sir,

As requested following interpretations can be made from the test report of your application:

1. This application makes use of the AspEncrypt component that performs the digital encryption, decryption, signing and verification procedures on behalf of the e-Procuremate (Reverse Auction) web application
2. For this purpose the e-Procuremate (Reverse Auction) uses the digital certificates of the type prescribed by the IT Act 2000.

Thanking you with Regards,

L.S. Sharma
Managing Director
