eLogixmate™

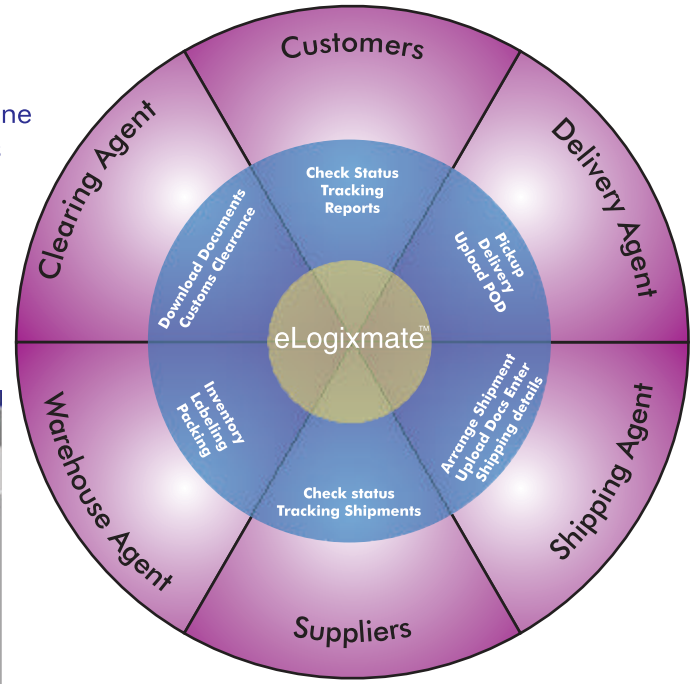

XTENZA

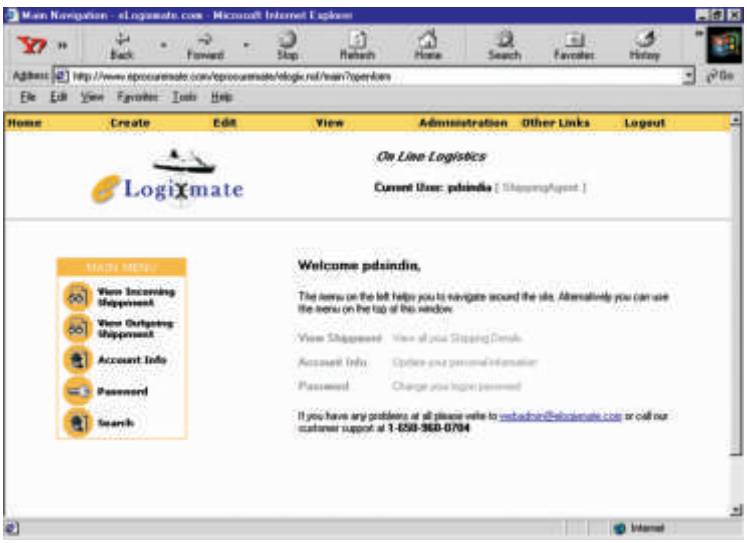

Web enabled collaborative e-Logistics solution to improve efficiency using collaboration between companies and 3PL logistics providers

eLogixmate is a Collaborative Logistics solution sponsored by organizations. eLogixmate allows logistics organizations, trading partners and their customers to collaborate in supply chain, shipment and fulfillment. eLogixmate can handle multiple customers, multiple clearance agents, multiple warehouses and multiple delivery agents to automate the complete shipment, clearance and fulfillment processes in the most efficient manner. eLogixmate provides a unique messaging automation that lets logistics companies communicate better and collaborate with their customers and trading partners. Logistic companies can arrange/ track shipments and provide shipment information and airway bill copies online to their customers. eLogixmate is accessed by the customers and trading partners through a standard browser- no software to install or maintain.

- Collaboration of complex logistics processes between shippers, customers, warehouse agents and delivery agents
- Win-Win Proposition for shippers, customers and trading partners (Forwarding & clearing agents).
- Improve efficiency by providing critical information
- High value creation for logistics execution
- Simple to use - as easy as email / browser
- Arrange shipment and track shipment online
- Provide shipment information and documents online
- Follow up / auto reminder - shipment & payments
- Provide quotes/ invoice for shipments online
- Data interface with existing / legacy systems
- Decision Support - Shipment status/ history etc.
- Wireless alerts for critical information
